We'll Send a Technician if Your System Requires Maintenance

### Live Support and Diagnostics

From Our Seattle Operations Center

### Included with Your New Solar System

Option to Renew Service (currently under \$13\*/mo.)

## How Does The Program Benefit You?

### Professional Monitoring Around The Clock!

Our proprietary 24/7 remote monitoring systems are responsible for protecting hundreds of thousands of customers of our Fortune 1000 clients and now – they are available to you. We'll know if your system is underperforming, often before you do.

If your system requires maintenance, our team will notify you and dispatch a technician to resolve the issue!

### Live Support | 100% Covered Maintenance

100% covered system maintenance for all system parts and components — including wiring and inverters.

Toll free unlimited access to our Seattle Operations Center providing live, real-time diagnostics of your system by solar experts.

Complimentary Quarterly Performance Reports, verifying the health of your system.

### Energy, Guaranteed. Or We Pay You!

Every year – if your system generates less than 95% of forecasted energy, we pay you for annual energy loss even if you experienced a bout of bad weather! Homeowners are responsible for keeping panels clean and free of shading – but if you need to take action – we'll let you know!

\*Monthly subscription for typical solar system (capacity up to 15 kWdc.) For larger systems: add \$3/month per 5 kWdc of additional capacity.
