

Better workmanship: tile roofs

What you get with SunPower:

- Replacement of full tiles; no tile grinding or cutting
- Flashing slides easily into place and twists to lock
- One extra tile per mount, so you can skip those trips to the tile yard
- Anodized black metal components for sleek aesthetics

What you might get somewhere else:

- Tile hooks with no flashing or peeled flashing
- Non-approved hardware with improper rail lengths
- Visible railings and piecemeal parts from multiple manufacturers
- Cheap silver or aluminum parts you can see from the road
