Dear Business Owner,

Electricity rates continue to increase every year creating a burden on your operating expenses. Now is the perfect time for you to consider adopting solar energy as a major cost-cutting investment for your business. A solar system installed at your business will immediately reduce your monthly utility expenses, giving you peace of mind when it comes to running your business.

Imagine generating your own electricity and increasing net operating income all while seeing an average of 20% return on your investment. It's easy for businesses to adopt solar with no money out of pocket with financing available. We assist in every step of the way and create a customized system based on the financial and energy needs of your business. Our goal is to build high efficiency solar systems for our customers that allow them to integrate solar electric energy into the everyday operation of their business as well as improving their bottom line.

Trust the experts at Horizon Solar Power, the leader of solar installations in Southern California, with thousands of happy customers. With Horizon Solar Power we also offer a 5 year power production guarantee and 25 year solar panel warranty for added piece of mind. We're a family owned, local company that will give you the experience and personal attention you deserve so that you can start enjoying the benefits of solar energy.

It's easy to get started call Horizon Solar Power to set up a consultation and energy analysis of your business at **855-200-HORIZON** (855-200-4674) or visit www.horizonsolarpower.com.

Thank you,

Christian Campisi
