

## CNY SOLAR INC.

CNY Solar is a NABCEP certified installer that is a step above the rest of the local installers. We rely on our referrals, so it is our top priority to make sure customers are completely satisfied. We strive to help put your money to work for you. By investing in Solar Power you are locking yourself into a rock bottom price per kilowatt for the next 30 years. The money you are saving on your utility bill will go towards the cost of the system and it will pay for itself in no time. Afterwards you can enjoy many years of FREE Electricity.

### Solar Electric (PV)

Solar power is a great way to reduce or eliminate your electric bill and reduce your carbon footprint. YES, Solar PV does work in Central New York. Solar PV produces better on a 32 degree day than a 90 degree day.

Solar PV even produces on cloudy days. It does not have to see the sun to produce electricity. Are these systems affordable? Absolutely, very affordable for Residential or Business. The cost of the panels have dropped to an all time low and the Incentives that are offered make these systems affordable to almost any budget.

#### INCENTIVES

- NYSERDA rebates: Up to 40% of costs.
- Federal tax credits of 30%
- State tax credits of 25%
- Call to find out other Rebates/Promotions

#### BENEFITS

- Most systems pay for themselves in under 10 years
- A variety of funding options are available
- Leasing options are available with low up-front costs available and monthly payments less than your current utility bill

### SOLARIZE PROGRAMS

Solarize campaigns are locally-organized community outreach efforts aimed at getting a critical mass of area homes and businesses to install solar. Solarize campaigns bring together widespread community outreach and education, competitive installer selection, and a limited-time offer to bring more customers to solar and provide significant cost savings.

CNY Solar Inc. has been the chosen contractor for both Solarize Madison and Solarize Syracuse programs.

CNY Solar is open to the public:

We invite visitors to come to our office to see 6 different running solar systems. (3- Solar Electric systems, 1-Solar Hot Water system, 1- Solar pool Heater and 1- Solar sheet). Our office system is also off-grid. Call or Email to schedule a visit.
