

Check out a few Fantastic Reviews from Real Solar Optimum Clients!

A.B.- Los Angeles, CA

"Great experience with Solar Optimum. They responded to my every question concerns i had with patience and kindness. They gave me prices that was within my budget. They did all the work from A to Z, which i am very happy with. I didn't have to worry about anything. The company has great work ethic, very professional, very nice. Great job and thanks for everything!"

A.Y. – Glendale, CA

"It pays to go local. I received quotes from the leading national solar installers and quotes from Los Angeles only installers. Solar Optimum gave me a quote that I frankly thought was a mistake but they knew the rebates available from my local utility (Glendale Water & Power) and discounted the price based upon those rebates, would go after the rebate themselves, *and* guaranteed their quote even if they couldn't get the refund! The other installers said that I was on my own to get the rebate.

The installation went smoothly and their crew worked closely with the roofers who were doing a re-roof so that the new panel mounts were incorporated into the new roof."

D.M.- Los Angeles, CA

"We had a fantastic experience leasing our solar panels through Solar Optimum. A joy to work with throughout the whole process. There was no hard sell during our initial consultation. He was always fast and responsive to any queries. Solar Optimum - basically handled everything. Including upgrading our electrical panel. It was as easy as signing some paperwork - then they handled everything else.

The time frame they laid out was accurate - as were the costs. Highly recommended!"
