

MORE Fantastic Reviews from Real Solar Optimum Clients!

H.S.- Glendale, CA

"After doing my little research and talking with few solar companies, and their representatives, I found myself comfortable working with Solar Optimum; they have answered to all my questions, addressed my concerns and their price was within my budget. They were very professional, knowledgeable, fully understood my requirements and followed up with all the appointments promptly. I am very pleased with the result and their work. They did a fantastic job. I will definitely recommend working with this company. You can never go wrong with them."

No hard sell here, just honest data to help us make an informed decision. We sought out the company thru Internet searches, reviews, and evaluations and weren't disappointed. Solar Optimum took time with us explaining various programs and equipment. Never made us feel pressured or rushed. While we are a distance from their office, (they were) always punctual for appointments and knowledgeable about our city and state codes.

I finally bit the bullet and went Solar. I'm so thrilled with the results and the benefits. Solar Optimum's sales reps were so professional. They met with us a few times before we figured out what our best options were. After answering a million of our questions, we went ahead and started the process. Let me tell you, our system has been operational for a little under 8 months and I've tracked the data obsessively. It totally paid off!
