

WUNDER TERM FINANCING

At Wunder, we focus exclusively on lending capital to businesses - like yours - to “go solar”. We’re not a bank, we’re financiers that strongly believe in the promise that energy independence represents for growing businesses across the United States. To that end, we’ve designed thoughtful financing offerings that allow business owners to capture the full benefits of going solar by providing the cheapest and easiest path to system ownership.

- \$1MM Max. Loan Amount
- 7 Year Term (Amortized)
- 8 to 10% Fixed APR
- Monthly Invoicing
- Automated Payments
- No Prepayment Penalty

At Wunder, we understand the value of solar, so borrowers don’t need to put up additional assets as collateral to secure financing. They also won’t limit their ability to borrow from lenders in the future.
