

SUMMIT
ENERGY

TRADITIONAL POWER

SOLAR POWER

FOR EVERYTHING SOLAR, THERE'S SUMMIT

Experience: Installing Solar since 1977

Equipment: Custom Tailored Solutions

Customer Experience: Transparent, Responsive, Responsible

Efficient: Up to 90% faster PTO time

Warranty: 25 years

BE YOUR OWN POWER COMPANY

AND CHARGE YOURSELF LESS

Nationally power rates have increased at least 3% annually for the last 20 years. By going SOLAR you take control of your power bill and save significantly.

Lower Energy Bills

Raised Home Value

Zero Maintenance

Cost at Install

ADDITIONAL INCENTIVES

With all of the federal and state incentives in place, you can significantly lower the initial cost of the PV system by as much as 70%.

ENVIRONMENTAL SAVINGS

The average solar system will offset 30 tons of carbon dioxide over 30 years, saving the equivalent of...

60,000 miles of driving

80,000 gal. of water for electricity

Planting 2,400 trees

16 tons of burned coal
