

DESIGNED, BUILT, AND TESTED IN OREGON

- Our advanced home battery stores energy so you have it when you need it most—**helping keep the grid stable and your home connected.**
- **With 24/7 cloud-based monitoring and support,** you'll enjoy peace of mind, greater independence, and real energy savings.
- Our system adapts to you — **compatible with the grid, generators, and solar.**

SEE HOW IT WORKS IN YOUR HOME

STAY CONNECTED

With MeterHome®, your lights stay on and life keeps moving - even when the grid goes dark.

TAKE CONTROL OF YOUR POWER AND YOUR BILL.

MeterHome® charges when rates are low and powers your home when they're high—cutting your energy costs *every day*.

RECOVER YOUR INVESTMENT

At a fraction of the price of most solar installations, and with more functionality than a generator, MeterHome® customers often recover their investment costs years sooner than solar.
